

AGRICULTURAL AND FORESTRY MACHINES CONFORMITY ASSESSMENT

By the Law No. 22/1997 Coll., on technical requirements for products and relevant government provisions (GP), are set the same legislative conditions for placing products into the market in CR and EU with a duty to mark the product with **CE** mark of conformity.

SZZPLS, J.S.C.

- Is an authorized/notified body AO 255/NB 1016 according to the Law No. 22/1997 Coll. for products given according to GP No. 176/2008 Coll. (2006/42/EC), GP No. 9/2002 Coll. (2000/14/EC) in wording of subsequent regulations.
- Is an accredited testing laboratory No. 1054 according to EN ISO/IEC 17025.
- Is an accredited certification body No. 3062 for product certification according to EN 45011.

SZZPLS, J.S.C. PROVIDES BASIC INFORMATION ON:

- responsibilities of manufacturers and distributors in terms of operation of machinery on roads arising from the Law No. 56/2001 Coll. and its implementing regulations,
- technical requirements for special vehicles in terms of approval for operation on roads,
- conditions of tests being performed that are needful for the approval of the technical worthiness.

STRATEGY AND PERFORMANCE OF CONFORMITY ASSESSMENT

- Selection of process and procedures in accordance with product specification.
- Selection of the current technical requirements and relevant regulations.
- Analysis and consideration of the supplied documentation.
- Tests, assessments and measurements of machine properties and parameters in relation to requirements.
- The required documentation and EC declaration of conformity.

ASSESSED COMMODITIES OF PRODUCTS

- **Self-propelled machines** – harvesters, forage cutters, sugar-beet harvesters etc.
- **Towed working machines** – seeders, slurry tankers, ploughs, combinators, forwarders etc.
- **Mounted working machines** – dyke mowers, machines for primary tillage etc.
- **Municipal machinery**
- **Used machines**
