

CENTRE OF TECHNICAL STANDARDIZATION

The Law No. 22/1997 Coll. on technical requirements for products defines conditions of use and work with the technical standards and regulations.

Since 1st January 2009 SZZPLS, J.S.C. has been authorized by (ÚNMZ) COSMT – Czech Office for Standards, Metrology and Testing to act as a Centre of Technical Standardization (CTN) in Czech Republic, registration No. 2009/0043/RS in the scope of its activity.

As a CTN SZZPLS, J.S.C. is authorized to provide regional and international cooperation while elaborating CEN, CENELEC, ISO and IEC standards in the field of agricultural and forestry machinery, tractors, food processing machinery, irrigation equipment, electrical appliances used in agriculture, machines and equipment for earthworks, construction production, construction materials and surface mining, and electric or motor cleaning appliances.

CTN in SZZPLS, J.S.C. provides concrete works in international organizations in cooperation with manufacturers, their associations and other standard bodies.

CTN OFFERS IN THE SPHERE OF STANDARDIZATION THE FOLLOWING SERVICES:

- ◆ information from an internal database of standards and regulations;
- ◆ consultancy in the field of the legal and real matters of technical standardization;
- ◆ information on results and procedures in further mentioned international organizations;
- ◆ participation in comment procedure for developing standards and in international meetings.

SCOPE OF CTN ACTIVITIES IN INTERNATIONAL ORGANIZATIONS FOR STANDARDIZATION

- CEN/TC 65 – Portable grinding machines. Mechanical safety
- CEN/TC 144 – Tractors and machinery for agriculture and forestry
- CEN/TC 151 – Machines and equipment for earthwork and construction work and to process building materials – Safety
- CEN/TC 153 – Food processing machinery
- CEN/TC 213 – Cartridge operated hand-held tools
- CEN/TC 255 – Hand-held, non-electric powered tools. Safety
- CEN/TC 301 – Electrically propelled road vehicles
- CEN/TC 334 – Irrigation techniques
- CEN/TC 337 – Winter maintenance and road service area maintenance equipment – Functional aspects
- CEN/TC 354 – Ride-on, off-road motorized vehicles for the transportation of persons and goods – safety, performance and testing requirements
- ISO/TC 23 – Tractors and machinery for agriculture and forestry
- ISO/TC 127 – Earth-moving machinery
- ISO/TC 191 – Animal/mammal traps
- ISO/TC 195 – Building construction machinery and equipment
